Our topic: The State of Technology in the Church

When it comes to technology, are you leading the pack or just trying to keep up? We want to know how you're faring in this technology-heavy age—what changes you've made, who you're hiring to bring you up to speed and what tools are proving invaluable.

Simply log on to www.churchbusiness.com this month and take a few minutes to respond to our latest Click 'n Survey, and you're automatically entered to win *Leading Geeks: How to Manage and Lead People Who Deliver Technology* by Paul Glen (\$26.95) and 200 free long-distance minutes courtesy of KODA Capital Group! (See pg. 50 for details)

With *Leading Geeks*, author and management consultant Paul Glen gives you the understanding you need to lead the technologists on whom you rely. Written in nontechnical language, Glen not only provides proven management strategies but also background on why traditional approaches often don't work with "geeks."
